Cornèr Bank launches CornèrTrader: an innovative, online solution for all Swiss investors

Cornèr Bank has leveraged on the best of its knowledge, built from its tradition in Private Banking and extensive experience in servicing the Swiss Investors, to launch a new online trading solution: CornèrTrader. It will provide all Swiss investors with an innovative online platform for investments in world financial markets, together with personalized assistance provided by its experienced Account Executives.

CornèrTrader is a portal to all the major financial markets worldwide, offering more than 20'000 financial instruments. The platform gives access to FX Spot, FX Forwards and FX Options trading for multiple crosses, majors and exotic, allowing the online investor to trade on 160 FX pairs. All the major Futures Contracts are available, from Asian, European and American Exchanges.

CornèrTrader also offers Stock Trading from 23 different exchanges and, for the more experienced investor, CFDs (Contracts for Differences), which allow to invest with leveraged gears in the stock and commodities markets.

CornèrTrader tools allow to trade and manage positions at any time and from any location, also having access to real-time account information and streaming prices. Furthermore, CornèrTrader provides a variety of features that empower investors to make more effective trading decisions and better understand and evaluate their investment potential.

The modern Swiss Investor and Trader increasingly demand transparency, mobility, performance and also personal service when executing trades in world financial markets. CornèrTrader meets these demands through its state-of-the-art technical tools and features.

The CornèrTrader platform can be installed on PC or accessed through browser based applications, by iPhone, Android and Blackberry.

Headquartered in Zürich, the CornèrTrader dedicated team is available to discuss financial markets Monday to Friday, from 8.00 to 22.15.
